

Directive No. 27

FIRE INSURANCE POLICY CODES

May 12, 1975

It has been brought to my attention that many agents doing business in this state are not properly coding fire insurance policies.

All fire insurance companies transacting business in Louisiana are hereby directed:

1. To notify each agent to properly check the fire coding on new policies issued and to place the correct coding thereon;
2. To notify each agent to review existing policies and properly code them, showing the location symbol;
3. To add a new line on the applications for fire insurance as follows: Which fire district are you in?

Please furnish me with a copy of the letter to be sent to each of your company's agents carrying out the effect of this directive.

Please be governed accordingly.

Sherman A. Bernard
COMMISSIONER OF INSURANCE
